

UV Sanitizing  
Cabinet

# CoronaOven<sup>TM</sup> Cabinet

## CoronaOven Cabinet

CoronaOven Cabinet<sup>TM</sup> is designed to sanitize multiple items in one go. The CoronaOven Cabinet<sup>TM</sup> is designed with multiple shelves and has independent UV radiation zones to ensure that objects placed inside the CoronaOven Cabinet<sup>TM</sup> receive calibrated and accurate UV radiation from all 360 degree for fast, effective, non-chemical based surface sanitization of metal, glass and plastic ware.

The CoronaOven Cabinet<sup>TM</sup> is designed to work for various applications like:

- Masks
- Food and Beverages
- Cutlery
- Multiple Parcels
- Eyewear, stationary
- Footwear

## Key Features

- UV-C based sanitization
- Endowed with 10 removable shelves to place the items for disinfection
- UV light indicator
- Safety switch to cut off the UVC lamps when door is open
- UV reflective coating inside the chamber

ELECTRICAL FEATURE	
Operating Voltage	220 VAC
Power	471.5 W
Frequency	50Hz
TECHNICAL SPECIFICATION	
Type	Stationary
Lamp	UV-C
Wavelength	254nm
Timer	Adjustable (0-30min), Comes with pre-defined settings
Disinfection Time (Recommended)	4 Minutes
Weight	140 kgs
Dimension (Outer Body)	676 x 660 x 1575 mm (l x b x h)
Number of UV Lamps	41
Size of Each Shelf	450 x 450 mm (l x b )
Distance Between Shelves	118 mm
Body Material	Powder Coated MS
Tray Material	SS-304
Capacity	440 L

**₹ MRP – 72,800/-**
